Your study guide

RECTOR'S GREETINGS

Dear student,

I would like to personally thank you for choosing studies at KTU and I understand your decision as trust in our University and the education that it provides.

You have probably heard many times that studies at the University stand for knowledge. I encourage you to take all of that knowledge in and to make use of every opportunity that you are provided. Actively learn in all of your classes, be they remote or eye-to-eye with the teachers, search for information in modern science databases, master working with laboratory equipment and travel abroad for part-time studies with student exchange programmes.

You have also heard that the University means competence. There is no doubt that by studying here you will develop skills that professionals in Lithuania and abroad value. Fearlessly take part in student leisure and career programmes, with which many people have already reached inspiring goals.

The key point though, is that the University is its people. I am sure you will meet interesting, intelligent, educated, creative people and those with a flair for business. All of them have these two things in common – they have developed critical thinking and they wish to make the decisions of tomorrow.

KTU aims to gather active, intellectual and positive people that are attracted by technology and the progress it encourages. You are definitely gifted with such qualities.

Welcome to our great KTU community.

May your studies be successful,
KTU rector
Eugenijus Valatka

THE SCRIPT – IS ALL YOURS

Only you may choose what it is about. Will it be a journey toward excellence, where you acquire new knowledge and discover new opportunities? Will it be full of action and challenges that lead to unforgettable experiences? Maybe it will encompass all of that and even more.

If you wish to get international experience and interdisciplinary competencies, if you are in search of collaborative work that will inspire and motivate you, there is only one choice – KTU will provide you with the support and opportunities that will earn your script an Oscar, the support needed and will open doors to a promising future.

Your KTU:

- established in 1922
- 9 film studios – faculties
- 9 500 KTU Crew members
- more than 9000 ha learning and creating spaces

ORGANISATION OF STUDIES

Study module The study module is the basic unit of study planning describing a single study subject taught for one semester. A study module may include various combinations of lectures, laboratory work, practice, seminars, the student's independent work, scientific research, design work or other type of work.

Study modules may be mandatory, alternative (selected from a list), general and optional (from the list of modules the University offers). Studies of each module are completed by an evaluation of the students knowledge and skills – an examination or a different form of final assessment.

Find your timetable, assessment results and other relevant information about studies in the Academic Information System (AIS).

Study credit The scope of studies is measured in study credits that describe a students workload. The full-time study workload for one year is 60 credits – 1600 work hours.

Assessment system In the University, the cumulative assessment method is used: study results are measured by intermediate assessments, and the final grade is the sum of the results of intermediate assessments and the final assessment (examination). A student who fails to submit individual semester work tasks is not allowed to participate in the final assessment.

15

Study quality We will always encourage you to participate in the process of study organisation and to express your opinion on the quality of teaching, student integration and other University processes.

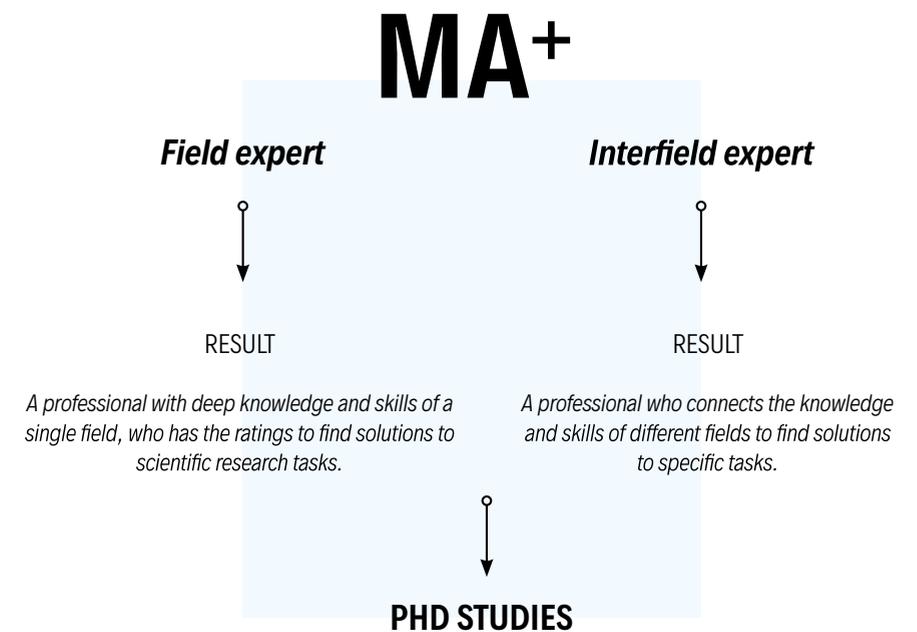

Find the developments achieved through collaboration with the students on our Facebook page KTU Studentams, in the *You Said It We Did It* column.

16

FOR MASTER'S STUDENTS – MA+ STUDY MODEL

Expand the range of your competencies Master studies at Kaunas University of Technology are the first such studies in Lithuania. They are meant for the new generation, as they meet both the society and market requirements and the global trends while focusing the most on developing the personal competencies of each individual. MA+ offers the opportunity to participate in research groups, to work on international projects together with scientists and apply your newly acquired knowledge.

17

More information on potential ways and alternative opportunities to develop your competencies: admissions.ktu.edu → Master's → MA+

Choose your competencies for the MA+ Masters programme from 27 August to 9 September on the KTU Academic Information System.

Lecture times	I	9.00–10.30
	II	11.00–12.30
	III	13.30–15.00
	IV	15.30–17.00
	V	17.30–19.00
	VI	19.15–20.45

- Tuition fees** In the University, tuition fees are applied for:
- studying in non–state–funded positions;
 - retaking separate study programme modules;
 - studying additional modules that are not included in your study programme;
 - retaking the intermediate module assessment or final module assessment a second time;
 - retaking a module in the following semester due to having not passed the final module assessment.

Attendance It is mandatory to attend laboratory works. The attendance requirements for other types of classes (theory, practice, etc.) are set by each teacher. In the first class of the module, the teacher introduces the minimal attendance requirements, which then are published in the module description in the AIS.

Disciplinary penalties are applied to students who do not attend lectures and classes under the determined procedure.

In exceptional cases, the Faculty's Dean can allow a student to attend classes, to perform tasks and to get assessments on an individual schedule.

Teacher consultations Consult your module teacher in case you need any additional help with the module work.

Academic honesty The base of the culture of your University is academic values and principles of ethics. Academic honesty is one of the most important academic University values. Remember that no form of cheating in attempt to get a grade for your individual semester tasks and no form of cheating in examinations are tolerated. Dishonest conduct has consequences – you receive an academic penalty, consequently losing the right to retake your assessments. Having breached the Code of Academic Ethics twice and having received academic penalties, the student is expelled from the University.

INTERNATIONALISATION

„ERASMUS+“ ERASMUS+ is the most popular student exchange programme in Europe. It offers the opportunity to study and acquire hands-on experience, creates an environment of openness and tolerance and encourages the dialogue of cultures and a global way of thinking. Erasmus scholarships – up to 700 €/month!

Erasmus+ studies KTU has almost 400 partners offering quality programmes and new student experiences. These studies are fully transferable between universities and the results are included in your diploma. The call for applications is announced in the months of September and March.

Internships You may do an internships in the companies, science research centres and other organisations that are in the countries participating in the Erasmus+ programme. You may do a summer internship in between semesters and (or) an internship after graduation. During your mandatory summer internship, you will acquire professional knowledge, get acquainted with the job market requirements and establish both business and new personal relations.

More information: ktu.edu → *Students* → *Academic mobility*

20

Bilateral exchange outside of Europe! You may travel abroad for 1–2 semester exchange studies and for summer/winter programmes, as KTU has a number of bilateral cooperation and student exchange agreements with partner universities. For KTU students, study in partner universities is free-of-charge (except for summer schools). The travel and accommodation abroad costs are to be covered by the student with the chance to be awarded a KTU mobility scholarship.

More information: ktu.edu → *Students* → *Academic mobility* → *Part time studies*

„The Jazz Singer“, 1927

SERVICES

Dormitory accommodation fee adjustment

KTU offers dormitory accommodation where a student can have a shared room (2 or 3 people), may use the kitchen, laundry, internet and other facilities. Monthly rent rates vary depending on the room type ranging from 60 to 140 EUR.

If you prefer to have more space or would like to live in a certain area of Kaunas, you may choose renting a flat. The rental prices vary depending on the number of rooms, location, living conditions, period of rent, etc. Average rent prices are from 200 to 300 EUR per month for a flat (1–3 rooms).

23

Health insurance

What kind of insurance you need depends on your nationality:

Citizens of EU/EEA Countries

Please acquire an adequate health/travel insurance for studies at KTU. Citizens of EU/EEA countries simply need to obtain the European Health Insurance Card (EHIC) from the social security authorities in their home country. Holders of EHIC cards are entitled to the same benefits provided by the Lithuanian Insurance Institution as Lithuanian citizens. Private insurance for acute illnesses and accidents is highly recommended.

Citizens of other countries

Students from non-EU countries may obtain their health insurance either in their country or in Lithuania.

An opportunity to reduce the dormitory accommodation fee is applicable to students in a difficult material or social situation.

More information: ktu.edu → *Students* → *Finance*

Library In the library, you will find individual and group work spaces, computers and Internet connection, also leisure and relaxation areas. There are work spaces and equipment for students with special needs. You are welcome to read and borrow printed materials and copy, scan or print document extracts. You can access the global e-information resources in the University and from home 24/7 via VPN (Virtual Private Network). During the training sessions given by the library staff, you will learn to find information resources and use them effectively. If you need help, please contact your subject librarian.
More information: library.ktu.edu

KTU online bookstore On the KTU Publishing House online bookstore website you may easily purchase any needed workbooks and educational books. You only need to register here at e-parduotuve.ktu.edu! In the bookstore, you may also find various University-branded notebooks, writing pads and calendars.

If you are ever in need of printing and publishing services, contact:
spaustuve@ktu.lt
More information: 2017.ktu.edu/en/publishing-house/

E-mail An e-mail box (@ktu.edu) is created for every first-year student, the address for which can be found once you log in, e.g., name.surname@ktu.edu. Keep in mind that it is an official means of communication from the University to you. According to the Learning Agreement, students are obliged to check their University-provided e-mail box regularly and to use it in accordance to the rules set by the University. Important information on studies and e-mails from teachers will only be sent to this e-mail box, and that is why you should not forget to check it.
In the Virtual Learning Environment – MOODLE, teachers submit study

24

material, tasks, tests and any additional information for students. Register here: moodle.ktu.edu

Virtual resources Office365 – is an information storage environment where you can find the most important documents, request forms, memos and KTU templates for presentations. Join here: live.ktu.lt
KTU DreamSpark – is an online environment from which KTU students can download software free-of-charge.
Register: live.ktu.lt/dreamspark

Digital badges are certificates and a new digital standard for acknowledgment of the non-formal learning and education achievements.
Download the Badge Wallet app and start collecting badges!
Digital badges are awarded for:

- volunteering;
- additional and volunteer internships;
- membership in KTU organisations;
- additional education/learning at KTU;
- research activities;
- transfer of knowledge and experience;
- achievements in olympiads, contests and competitions.

What is Startup Space? It is an open community of Kaunas startups that unites the creative teams from their earliest stage – the idea.

What does Startup Space offer you?

- Team coordination, consultations, mentorship
- expert support
- training, events
- assistance in search of partners
- a community.

Start developing your business idea from your first year at University.

25

PSYCHO- LOGICAL SUPPORT

The University students are offered psychological services free-of-charge. Individual and group consultations, stress management and relaxation sessions will help you overcome any difficulties!
To register for a consultation or any other session, contact the KTU psychologist by e-mail psychologas@ktu.lt

More information: ktu.edu → *Students* → *Emotional and physical wellbeing*

Box Breathing exercises recommended by the KTU psychologist will help you rid yourself of the fear of assessments

The steps of box breathing

- | | |
|--|--|
| 1
Slowly exhale, getting all the oxygen out of your lungs. Focus on this intention and be conscious of what you're doing. | 2
Inhale slowly and deeply through your nose to the count of four. Feel the air fill your lungs, one section at a time, until your lungs are completely full and the air moves into your abdomen. Imagine you are drawing the upward stroke of what will become a box. |
| 4
Exhale through your mouth for the same slow count of four as you complete the downward stroke of your box, expelling the air from your lungs and abdomen. Be conscious of the feeling of the air leaving your lungs. | 3
Hold your breath for four seconds, and imagine you are drawing the first horizontal stroke of your box. |

26

27

THE SCRIPT FOR **SUCCESSFUL** **ADAPTATION AT THE UNIVERSITY**

Becoming a student is an important stage in your life, and it has to do with new opportunities, revelations, change and challenges. At the same moment you might feel enthusiastic, happy, excited and maybe even nervous.

Every person is unique and reacts to change differently. That is why sometimes more time and effort is needed to successfully integrate into the University life.

1. Ask It is natural that many things seem unclear, and questions and doubts can arise. Teachers, administration staff and your older colleagues, the students, are ready to help you find answers to your questions. You may also always consult your peer mentor and the KTU psychologist.

2. Share your experiences Many students face some kind of difficulties. A heartfelt conversation on how you are feeling and what you are facing helps you to feel better, look at the situation differently, find new solutions and find support.

3. Communicate with your family, relatives and friends You might miss home, parents and friends, and the new routine might cause a lot of stress. Becoming a student is a change that can make you lose the things you were used to and, at the same time, gain something new. Find the time to be with your family and friends. It is important to find a balance between keeping in contact with relatives and friends, and between the time you spend on adaptation and integrating into the University life.

28

4. Step outside your comfort zone

It is reasonable to feel fear and worry, while feeling curious about the new and the unexperienced. Find a balance between the activities that you are accustomed to and those that make you feel awkward. Stepping out of your comfort zone provides you with an ideal chance to understand yourself better, become more confident and find new, interesting activities and opportunities for self-realisation.

5. Plan your time

When you become a student, new opportunities arise and you gain more freedom, yet more responsibility too. It is important to identify your priorities, study systematically and to distribute other activities throughout the semester, while maintaining a balance between work and relaxation. This will help you achieve your goals and avoid additional stress.

6. Be active

The beginning of studies is perfect for integration into the activities of various University organisations, starting new relationships, having new experiences and realising yourself.

7. Get ready for challenges

Failure and disappointment are a natural part of the process
"I never lose. I either win or learn." Nelson Mandela

8. Live a healthy lifestyle

Eat healthy, get enough sleep and be physically active. These are aspects to keep in mind not only for maintaining your physical but also mental health.

29

YOUR FINANCES

The biggest University Talent Scholarships in Lithuania are awarded to the most active students who achieve exceptional results in their studies, research or art projects, who are active in extra-curricular activities in the areas of business, innovations and social activities that promote the KTU name. All bachelor's and master's students, as well as integrated and non-degree studies students can participate in the University Talent Scholarship competition, except for the bachelor students in the first semester of their first year.

The University Talent Scholarship amounts to 250 EUR per month. The total amount of support allocated per semester is 1,000 EUR.

More information on scholarships and their allocation can be found here: students.ktu.edu/finance

Patron and Sponsor Scholarships Active students who achieve high academic results are awarded nominal Patron (Sponsor) and company scholarships. The competition for Patron scholarships is announced in spring and autumn.

One-time Social Scholarships In cases where you or your family are affected by financial, health or other difficulties, you can apply for a One-time Social Scholarship. The scholarship amount is up to 456 EUR.

More information: students.ktu.edu/finance

30

Types of Encouragement Scholarships:

The First-year Talent Scholarships –150 EUR are awarded to first-year bachelor's students who have enrolled in the GIFTed Talent Academy.

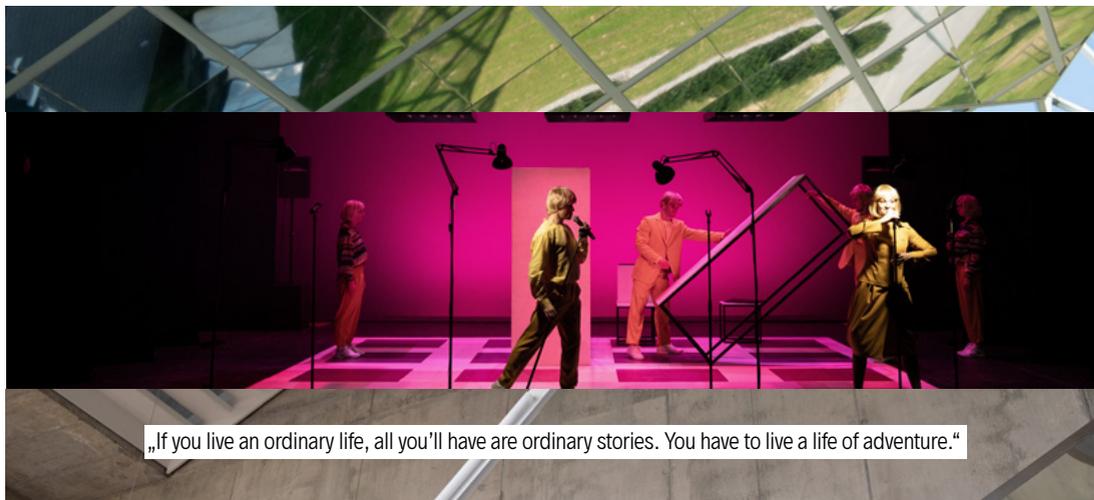

GIFTed Scholarships – 300 EUR are awarded to GIFTed members, except for bachelor students in the first semester of their first year savanoriavimą, Universiteto gerovės puoselėjimą ir pan.

Attention! To receive scholarships and support, you must submit your personal bank account number into the AIS section My data / Students address.

31 One-time Encouragement Scholarship

These scholarships are awarded for extra-curricular activities and active engagement in the activities of student organisations, art societies or sports teams, voluntary work and other work dedicated towards the prosperity of the University.

Be an active member of the community – if you witness cases of improper conduct around the University, report it – such information can be submitted in the AIS through the Report box.

32

„Passengers“, 2016

SPECIAL EFFECTS IN YOUR STUDY PROCESS

GIFTed – attention to talent development

33

GIFTed – attention to talent development

GIFTed – is the only talent development platform providing all opportunities to talented students for their development and skill realisation in the fields of science and business. The Talent Academy students will study according to a plan designed corresponding to a business or science area, where they will be able to choose Challenge Package activities. If you like the sound of theory and practice, research and entrepreneurship projects, discussions, new ideas, creativity, and if you are willing to invest effort and the enthusiasm required for the challenge, this programme is for you.

What do you have to do?

- Have a University admission score of no less than 7.5;
- Submit a request in the AIS (from 27 August to 4 September);
- Prove that you have additional competencies;
- During your interview, convince the selection committee of your motivation;

More information: ktu.edu → *Students* → *GIFTed*

Every student may have a mentor or be a mentor themselves – do not miss this chance!

GUIDed this mentorship programme provides you with the opportunity to have an individual teacher and a role model. It is a leadership programme encouraging student self–development, self–realisation and the achievement of goals. By participating in this programme, you would have the opportunity to meet business and academic community members and communicate with them about the things that matter to you. It is proven that people who have had mentors during their lifetime take less time adapting to the job market, achieve more and do not repeat the mistakes others have made.

Tutor consults you on your chosen university subject individually and in groups. The consultation timetable for the current semester is announced in the end of September and February in the Mentorship programme section of the Academic Information System (AIS).

Peer mentor is an older student that

- helps other first–year students integrate into University lifeužtikrina
- ensures a successful study beginning
- puts in the effort so that the new students can take their first steps in the University with courage and confidence.

The academic advisor:

- helps to fully make use of your study potential
- helps to select study modules and create the individual study plan
- determines how much formal help is needed
- opens more windows of opportunity in the University and outside
- recommends effective solutions to problems
- helps find the answers to relevant questions.

34

The career mentor (field specialist or company representative):

- helps to focus on the things that matter career and study–wise
- encourages you to set and achieve your goals
- educates and consults on communication and cooperation skills
- advises on what is important while studying
- encourages you to strive for good results
- aids you in creating a self–development plan and advises on its realisation
- helps to develop leadership competencies
- introduces you to your profession.

35

The research mentor helps you to:

- start your scientific research
- participate in conferences
- produce science publications
- become acquainted with the University laboratories and the opportunities and perspectives of a career in science.

More information: ktu.edu → *Students* → *GUIDed*

WANTED WANTED is a platform for the development of career competences that will help you to become a competitive professional in the job market. It provides possibilities both for your professional and personal development. Would you like to find a job quickly and start moving up the career ladder? Events and seminars will help you to understand the newest trends in the job market, to form a more open understanding of you career, to plan your studies more effectively, develop your personal competencies that lead to achieving you career goals and becoming a wanted professional and a competitive businessperson.

36

WANTED consists of open events, series of events and workshops, group and individual consultations and the sharing of the best practices.

The best university sportsmen of each sports who are willing to continue their sports career and aim for new victories are invited to combined sports teams.

The professional knowledge of coaches help sportsmen discover their talents and develop them through constant training and aim for high results in competitions.

Combined sports teams participate in competitions organised by Student Sports Associations, highest level championships, leagues, and tournaments.

The best members of combined teams are rewarded for their results and for the awareness of the University.

KTU sport teams:

- Basketball (men's)
- Football
- Volleyball (women's)
- Track and field athletics
- Badminton
- Power sports
- Judo and sambo
- Aerobic gymnastics

In participating in sports with us you will find new like-minded friends and hobbies, not to mention improvement!

Free-time exercises

- Track and field athletics
- Football
- Badminton
- Basketball
- Volleyball
- Cricket
- Partner activities

Free-time exercises take place in convenient locations in the Student Campus, so you can participate in sports when you have some free time between lectures or work.

Join us!

The new and modern ACTIVATed gym offers a free weights area, boxing and TRX areas, including power and cardio trainers.

„They may take our lives, but they'll never take our freedom!“

UNITed means direction that helps each student discover themselves. It presents a vast range of opportunities for everyone: trips, travel, internships, events and event organisation

More information: ktu.edu → *Students* → *UNITed*

KTU SA takes care of student social well-being, initiates changes in the study process, contributes to the organisation of cultural and commercial student events, co-operates with the business sector and much more.

The creation of **The Student Leisure Centre** was initiated by students. It is a place where you can spend your free time purposefully: try Xbox-kinect, play billiards or American billiards, table tennis, football, darts and air hockey. There are also facilities for studying and spending time with your classmates.

42

The AUROCHS organisation aims to participate in the international steel bridge competition BRICO every year. That is why the activity of the organisation is centred on bridge modelling, design, optimisation, durability calculation and construction.

The Debate club regularly meets for debate training on various topics and participates in national and international debate tournaments.

The Student Corporation TauTiTo promotes Lithuanian values and nationhood, participates in science festivals, organises discussions with interesting people, activities meant to promote science and an annual march called Learn to Defend Your Homeland.

The Invensa Investment Club helps young individuals develop their investment and financial literacy competencies, provides training, consultations and involves students in practical activities.

The Goštauta Folk group gathers people who think alike and all have dedicated a part of their heart to folk music and dance.

The Saltus Gladii Medieval dance club organises dances and participation in international projects and trips.

The Ažuolas Hikers Club organises hiking tours of all categories and difficulty levels all-year-round, contributes to various events, competitions and camping organisation, celebrates traditional holidays, dances, sings and plays music.

The Black and White Fortress, in Lithuanian known as the Baltai Juoda organisation, conducts social activities and events promoting nationhood and organises holiday celebrations and historical hikes.

The KTU Dormitory Council works to create cosy, comfortable and quality surroundings for students living in KTU dormitories.

43

The VideoShot Studio invites students to film and edit footage, to create visual effects and participate in various projects.

The Pixel Computer Graphics Studio is where you draw using PHOTOSHOP, sculpt with ZBRUSH, work with MAYA and create games in UNITY, using Unity and Unreal

The Art Room art studio awaits those that draw, paint, sculpt and invites them to participate in art events, expositions and competitions.

The Njuspeipis student publication team writes articles on various topics, takes photographs, creates layouts and cooperates with the business sector.

The Women Leadership Network cultivates self-development and leadership among women and helps them develop valuable skills and competencies for academic and non-academic careers.

The KTU Marketing Lab team deals with real life marketing challenges in groups, participates in marketing training, competitions and discussions.

The Student Scientific Society unites the most talented and active University students who think that science cannot be defined by lectures – it is a lifestyle.

WE GO KTU organises international youth exchange programmes and helps people travel to other countries where youth development is promoted by travelling, encourages purposeful leisure time and organises various competitions of hiking, canoeing, paintball or orienteering.

BEST Kaunas awaits students who like traveling around Europe, who wish to expand the scope of their theoretical and practical knowledge, develop their English, organisational and management skills and to spend free time in a purposeful and fun manner.

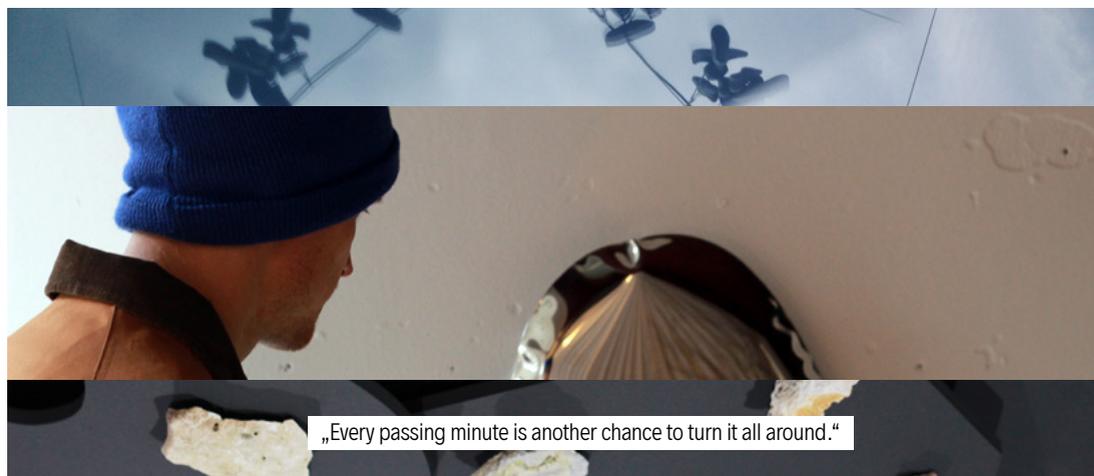

AIESEC in KTU aims to develop young leaders, helps to fulfil their full potential and breaks stereotypes by helping students find professional internships and become more open-minded all the while.

ESN KTU takes care of foreign students and encourages students to travel under the Erasmus+ exchange programme.

More information: ktu.edu → **Students** → **UNITed**

The aim of all of these clubs and societies is to help students to find and realise themselves, to develop the skills needed for their career or just to spend their free time purposefully. Students may participate in the activities of more than one club or society, which develops them into well-rounded and promising individuals. It is important to note that actual field professionals help students participating in these programmes, and their tried and trusted methods and experience makes the process much quicker.

„Every passing minute is another chance to turn it all around.“

KAUNAS DESIGN LIBRARY

The aim of the Kaunas Design Library is to increase public awareness about design, science, art and the most relevant world trends and to popularise design culture, foster cooperation between studies, science, art and business and encourage the development of the Lithuanian entrepreneurial and creative sector in the local and international context.

Opening hours:

Monday to Friday – 10:00–18:00

Saturday and Sunday – closed

K. Baršausko str. 59
Kaunas 51423
